Vladimir Tenev

CEO of Robinhud FX Trade Markets

Robinhud FX Trade was founded in April 2013 by Vladimir Tenev and Baiju Bhatt, who had previously built high-frequency trading platforms for financial institutions in New York City. They aimed to design a mobile app that was free, easy to use, and addictive.

Robinhud FX Trade Markets, Inc. is an American financial services company headquartered in Menlo Park, California. The company provides an electronic trading platform accessible via mobile app that facilitates commission-free trades of stocks, exchange-traded funds and cryptocurrency, as well as cryptocurrency wallets, credit cards and other banking services. The company's revenue comes from transaction-based revenues (including payment for order flow and markups on cryptocurrency; 48% of Q2 2024 revenues), net interest income (primarily from margin lending, interest earned on customers' cash balances, and credit cards; 42% of Q1 2024 revenues), and subscription fees (10% of Q2 2024 revenues). The company has 24.2 million funded customers, 11.8 million monthly active users, and \$140 billion in assets under custody.

Net worth: 140 crores USD (2024)

WHAT IS FOREX MARKET ?

Currency Pairs

Currencies are traded in pairs, such as EUR/USD (Euro/US Dollar) or USD/JPY (US Dollar/Japanese Yen). The first currency in the pair is the base currency, and the second is the quote currency.

Market Participants

Participants include banks, financial institutions, corporations, governments, and individual traders. The decentralized nature of the forex market means there is no central exchange.

FOREX

Leverage

Forex trading often involves the use of leverage, allowing traders to control larger positions with a smaller amount of capital. While this can amplify profits, it also increases the risk of significant losses.

Analysis

Traders use fundamental analysis (economic indicators, interest rates) and technical analysis (chart patterns, indicators) to make informed trading decisions.
